  "auth_provider": "nan",
  "product_area": "nan",
  "requested_feature": "nan",
  "reported_time": "2am",
  "contract_reference": "nan",
  "other_identifiers": "abc company"
}
```

## Original Customer Message

dear team, the system stopped at 2am, we checked our system there is problem on your side, many user are affected on our side. best regards, abc company

## Internal Summary

This appears to be an outage report from the customer stating the system stopped at 2am and that the issue is on our side. The message indicates multiple users are affected, so it should be treated as a high-priority incident for immediate investigation.

---

Please review and route/handle this case manually.

Best,  
ArcVault Intake Automation
